

# TOLGA EGE

Freelance Senior Mobile Developer (Android/iOS)

✉ [info@tolgaege.com](mailto:info@tolgaege.com)

🌐 [www.tolgaege.com](http://www.tolgaege.com)

📍 Türkiye

I have completed my Computer education at Gazi University and have been actively working in the software industry for 21 years. During this time, I have developed and successfully completed various projects using a variety of technologies. Throughout my career, my areas of expertise have included mobile application development (Flutter, React Native), web technologies (Python, Django, Symfony, PHP), and Javascript (React.js, Vue.js). Additionally, I have experience in data-focused tasks such as web scraping, data analysis, and data mining using Python and Node.js. With the unique satisfaction of coding and problem-solving, I view coding not just as a job but also as a passion. Helping others and finding solutions motivates me, which is why I have continued my career as a freelancer programmer.

I am ready to leverage my passion for coding and wide range of technical skills as a valuable resource for your project.
